COVID-19 Update *Confirmed Case in the Ho-Chunk Nation*

Ho-Chunk Nation – The Ho-Chunk Nation Department of Health received notification through the Wisconsin Electronic Disease Surveillance System (WEDSS) of a third confirmed case of COVID-19 within our jurisdiction.

The Ho-Chunk Nation Department of Health closely monitors all pending and positive cases within our jurisdiction. When the lab confirms a positive COVID-19 case, the Ho-Chunk Nation Department of Health is notified. It is the Department of Health's duty to follow up with the positive case to conduct a contact tracing investigation. During this investigation, the individual is asked to report on who they had close contact with (including others who were ill) and if they have recently traveled.

Please respect the privacy of person(s) being tested for COVID-19. HIPAA refers to a law designed to provide privacy standards to protect patients' medical records and other health information. Details about COVID-19 cases are confidential.

The number of people infected with COVID-19 continues to grow across Wisconsin and nationwide. Physical or social distancing-the practice of keeping at least 6 feet apart from others and avoiding direct physical contact-is proving to be the only effective means of slowing the rate of infection. Staying home when it is not essential to leave, is absolutely necessary during this time.

The Ho-Chunk Nation Department of Health is continually monitoring this outbreak and continues to work with our local county health departments and Wisconsin Department of Health Services (DHS).
