Re: Lead Service Line Inventory

The Ho-Chunk Nation Division of Environmental Health has completed an inventory of water service lines within the Ho-Chunk Village, Sand Pillow-Indian Mission, Cex' Ha Ci, Indian Heights, and Ho-Chunk Che Nunk Community Water Systems. In completing the inventory Environmental Health reviewed record drawings, installation records, replaced old service lines, and performed field inspections to verify or determine service line materials.

According to our records there are no lead service lines, galvanized service lines requiring replacement, or lead-status unknowns within any of these Community Water Systems. The Division of Environmental Health will continue to collect data on service lines and update our records as work continues to be performed within the community.

The Lead Service Line Inventory can be viewed by contacting Kevin Gunderson within the Division of Environmental Health at 715-284-9851 X35060. Information may also be requested by email ([Kevin.Gunderson@Ho-Chunk.com](mailto:Kevin.Gunderson@Ho-Chunk.com)).
