Brownfields Program

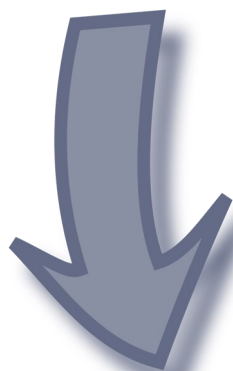

What is a Brownfield?

A brownfield is a property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. (EPA)

Examples:

- Dump site
- Junk Yard or Auto Repair Shop
- Abandoned Home
- Factory or Warehouse
- Hazardous substance storage
- Hazardous spill

MORE INFORMATION

The Ho-Chunk Nation was awarded the Section 128(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) grant. Starting in fiscal year 2020, the program will develop and maintain a Tribal Response Plan (TRP). The TRP focuses on program development activities related to the four elements of a TRP including:

- Timely survey and inventory of Brownfield sites on tribal land
- Oversight and enforcement authority or other mechanisms and resources
- Mechanisms and resources to provide meaningful opportunities for public participation
- Mechanisms for approval of cleanup plans and verification and certification that cleanup is complete.
