CONTACT: Kiana Beaudin, Ho-Chunk Nation Health Department Health Officer, 715-284-9851

COVID 19 Testing

The Ho-Chunk Nation Health Department has been providing COVID 19 testing at both the Ho-Chunk Health Care Center and House of Wellness. In addition, the Health Department has provided testing at community sites. Our local public health partners have also been actively providing testing across the State. Due to this increase amount of testing throughout the State of Wisconsin laboratories are taking a bit longer to process results. We received notice that our Tomah (July 28th) testing site results will be delayed until Monday, August 3rd. The delays are approximately 3-5 days. Once the Ho-Chunk Health Department receives the test results the individual will be contacted regarding the results. Please be patient while your test is being processed. It is important to remember that while you are awaiting your results you should continue to practice social distancing, mask use, and proper hand hygiene.
