

# AT HOME COVID-19 TESTS

PLEASE READ CAREFULLY AND FOLLOW ALL DIRECTIONS ON TESTING KIT PACKAGING

## What to do if you test positive?

- Isolate from others
- Tell your close contacts you may have COVID-19
- Please note Public Health will not follow up with your results. A follow up test in clinic is recommended if needing to return to work or school.

## What to do if you test negative?

- Retest. If you are have symptoms and test negative, take another test in 24-48 hours
- Please note: At home test results may not be enough to return to school or work. Follow your employer or school's guidance

**Call your health care provider with questions, especially if you have worsening symptoms**

HOME COVID TESTS CAN BE USED TO MAKE DECISIONS ON ATTENDING A GATHERING OR GOING ON A TRIP, BUT SHOULD NOT REPLACE CLINIC OR DRIVE-THRU TESTING
